

cheap car insurance in ireland

Cheap car insurance in Ireland is a myth! As the average value of a car in Ireland falls through the floor with no banker (rhymes with *****) is willing to offer finance even to the most previous loyal customer. Cheap car insurance in Ireland has become a holy grail amongst the already high paying motorists of Ireland with companies like 123.ie, bestquote.ie and a host of other greedy cheap car insurance companies in Ireland jumping on the gravy train. Folks be aware that there is no such thing as cheap car insurance in Ireland-we are being stiffed by the government and also crucially by the so called car insurance companies that promise little yet deliver a 25% increase on our car insurance in Ireland in less than 12 months.
