

Wexford Hotels SEO

Over the past number of months we have been engaged to do some search engine optimisation or SEO work on behalf of a leading Wexford Hotel. Their site was invisible to Google for the past 7 years and was getting little or no organic traffic. In less than 6 months we have managed to rank the hotel for over 75 relevant keywords in the top1-10 positions on Google and multiply their traffic significantly. Whilst much work has been done on this Wexford Hotels SEO project there is more to do and we hope to post some of the many positions we have attained for our client here in the future.
